

**Program for WiN-Canada's 7th Annual Conference
Thursday September 30th, 2010 & Friday October 1st, 2010**

Carruther's Creek Golf & Country Club, Grand Room, Ajax

“Learning from Each Other”

September 30th

8:00 Registration & Continental Breakfast

Thank you to Merlin General and CTS for sponsoring the Continental Breakfast.

**8:30 Welcome – Cheryl Cottrill, Executive Director, WiN-Canada
WiN-Canada update – Susan Brissette, WiN-Canada President
WiN-Global update – Cheryl Boggess, WiN-Global President**

9:00 Government Perspective on Nuclear – Joe Dickson, MPP Ajax-Pickering – a view of the nuclear file from a government perspective.

Thank you to Ontario Power Generation for sponsoring this portion of the agenda.

9:25 The Nuclear Industry's Future – Denise Carpenter, CEO and President of the Canadian Nuclear Association, will provide her view on the status of the industry, from the Association's perspective, her plans for taking the industry forward and what role WiN can play in helping the industry be successful.

9:55 The Regulator at Work - Each CNSC staff panel member will briefly describe their respective regulatory specialty and demonstrate how their technical opinions are integrated and subsequently presented to the Canadian Nuclear Safety Commission Members for their regulatory decision. **Panel Moderator - Kathleen Heppell-Masys, Directorate of Safety Management Director General. Panellists - Caroline Purvis, Radiation Protection Division Director, Lisa Love-Tedjoutomo, Senior Regulatory Program Officer, and Anna Mastilovic, Training Program Evaluation Officer.**

10:42 Break

Thank you to Cameco for sponsoring the morning break.

11:00 Breaking the Glass Ceiling – Women & Success – The panel will discuss their own career path, work-life balance, offer advice for career development, etc. - **Panel Moderator – Laurie Swami, Director Licensing and Environment - DNNP VP Nuclear Regulatory Programs – NPT, OPG, Panellists – Gail Smyth, Executive Director, Skills Canada – Ontario; Rumina Velshi, Retired Director from OPG and Judith Humphrey, President, The Humphrey Group.**

11:40 Nuclear Family – How We Support Each Other – The panel will discuss what each of their organizations contributes within the industry and how they think WiN adds value to the Canadian nuclear industry and their organizations. **Panel Moderator - Davinder Valeri, Director, Strategic Planning & Stakeholder Relations Darlington New Nuclear Project, OPG. Panellists - Christine John, - Canadian Affairs Chair of North America Young Generation Nuclear, Adriaan Buijs, President of the Canadian Nuclear Society; Cheryl Boggess, President WiN-Global and Angela Mungo, Senior Technical Engineer, Fire Protection Programs and Training, Ontario Power Generation representing Sisters in Society.**

12:20 Lunch – Luncheon Speaker - Dr. Moyra McDill, Commissioner of CNSC & Professor.

Thank you to Bruce Power for sponsoring the lunch.

13:40 Careers in the Nuclear Industry - Poster session – What does that person who works in the same company, a different company or a different area of the nuclear industry actually do? - Posters will be prepared and presented from members working in the nuclear industry in generation, medicine, research, regulation, education, mining, etc.

Thank you to Korn/Ferry International for sponsoring the poster session.

14:56 Break

Thank you to the Organization of CANDU Industries (OCI) for sponsoring the afternoon break.

15:10 Launch of The Learning Partnership/WiN-Canada video on careers in the nuclear industry.

15:40 Keynote Inspirational Speaker – Dr. Roberta Bondar

Thank you to the Power Workers' Union for co-sponsoring Dr. Bondar's presentation.

16:40 WiN-AWARD

16:50 Evaluation Forms

16:55 Door Prizes

17:05 Closing Remarks

17:20 Group Photo

17:30 Reception – Time to network with WiN members and conference participants.

Thank you to Sisters in Society, from The Society of Energy Professionals, for sponsoring the reception.

Thank you to Kinectrics for sponsoring the Audio Visual services for the day.

Thank you to University of Ontario Institute of Technology for sponsoring six students to attend the conference.

Thank you to Atomic Energy of Canada Limited for sponsoring four students to attend the conference.

In Kind Sponsorships:

Thank you to Ontario Power Generation (OPG) for sponsoring the tours and for allowing their employees and WiN-Durham members to help out with the organization of the conference.

Thank you to Atomic Energy of Canada Limited (AECL) for sponsoring a tour.

Thank you to Cameco for sponsoring a tour.

Thank you to UOIT for sponsoring the electric bus for the Darlington In-Plant tour.

October 1st

All tours will be run in the morning of October 1st and will finish up in time for those wishing to golf in the afternoon.

Tour at CFM – Port Hope facility – Approximately 3 hours

Pick up at Marriott Residence Inn, 60 Consumers Drive, Whitby, ON – registration at 6:35 a.m., bus leaves at 6:45 a.m. sharp
Pick up at Carruther's Creek Golf & Country Club, 650 Lakeridge Road, Ajax, ON at 7:00 a.m. sharp
Bus will return to Carruther's Creek at approximately 12:00 p.m. and then drop off at Marriott Residence Inn at approximately 12:20 p.m.

Cameco Fuel Manufacturing in Port Hope manufactures nuclear fuel bundles for Candu reactors. We will start out with a small presentation on our facility and the processes. We will also review some safety protocol before entering the shop floor. The tour will consist of seeing the powder being received; this is the first step of the process. You will then see how the powder is turned into a pellet and loaded into the elements that make up a bundle. On the tour you will also see how the bundle is assembled and packed for shipping.

Tour of AECL Waste Management Project – Port Hope – Approximately 3 hours

Pick up at Marriott Residence Inn, 60 Consumers Drive, Whitby, ON – registration at 6:35 a.m., bus leaves at 6:45 a.m. sharp

Pick up at Carruther's Creek Golf & Country Club, 650 Lakeridge Road, Ajax, ON at 7:00 a.m. sharp
Bus will return to Carruther's Creek at approximately 12:00 p.m. and then drop off at Marriott Residence Inn at approximately 12:20 p.m.

The communities of Port Hope and Port Granby, located approximately 1 hour east of Toronto, have long dealt with the legacy of low-level radioactive waste, which was the byproduct of the refining of radium and uranium in Port Hope by the former Eldorado Nuclear Limited, a federal Crown Corporation. Since the 1970s, the Government of Canada has assumed responsibility for the cleanup of the historic low-level waste and in partnership with the Municipalities of Clarington and Port Hope, established the Port Hope Area Initiative (PHAI) in 2001 to oversee these efforts.

During the visit to Port Hope, delegates will have an opportunity to meet with PHAI staff to learn about the history of the nuclear industry in the community and the PHAI's plans to effectively remediate more than 1.2 million cubic meters of historic low-level waste and transport it to a soon-to-be constructed aboveground waste management facility near Port Hope. A tour of the communities will highlight current major waste storage facilities and provide an overview of the innovative solutions that the PHAI has developed that will help ensure that the cleanup effort leaves an honourable legacy for future generations.

Tour of the Ontario Power Generation (OPG) Darlington In-Plant – Approximately 3 hours

Pick up at Marriott Residence Inn, 60 Consumers Drive, Whitby, ON – registration at 7:30 a.m., bus leaves at 7:40 a.m. sharp
Pick up at Carruther's Creek Golf & Country Club, 650 Lakeridge Road, Ajax, ON at 7:55 a.m. sharp
Bus will return to Carruther's Creek at approximately 12:00 p.m. and then drop off at Marriott Residence Inn at approximately 12:20 p.m.

During your visit to Darlington you will have the opportunity to meet OPG staff and learn about OPG, OPG Nuclear and Darlington Nuclear. Your in-plant tour will include a visit to the reactor, turbine hall, irradiated fuel bay and the control room.

Tour of the Ontario Power Generation (OPG) Pickering In-Plant – Approximately 3 hours

Pick up at Marriott Residence Inn, 60 Consumers Drive, Whitby, ON – registration at 7:40 a.m., bus leaves at 7:50 a.m. sharp
Pick up at Carruther's Creek Golf & Country Club, 650 Lakeridge Road, Ajax, ON at 8:10 a.m. sharp
In-Plant tour group will return by bus to Carruther's Creek at approximately 11:50 a.m. and then drop off at Marriott Residence Inn at approximately 12:05 p.m.

During your visit to Pickering you will have the opportunity to meet OPG staff and learn about OPG, OPG Nuclear and Pickering Nuclear. Your in-plant tour will include a visit to the reactor, turbine hall, irradiated fuel bay and the control room.

Tour of Pickering Simulator & Shops – Approximately 1.5 hours

Pick up at Marriott Residence Inn, 60 Consumers Drive, Whitby, ON – registration at 7:40 a.m., bus leaves at 7:50 a.m. sharp
Pick up at Carruther's Creek Golf & Country Club, 650 Lakeridge Road, Ajax, ON at 8:10 a.m. sharp
Simulator tour group will return by bus to Marriott Residence Inn at approximately 10:20 a.m.

During your visit you will receive an overview of OPG's Nuclear Training, visit the maintenance shops, the operator skills facility and the Pickering B simulator.

Golf Tournament – Carruther's Creek Golf and Country Club, 650 Lakeridge Road, Ajax, ON

Registration 12:00 noon to 12:45 p.m.

Shotgun start 1:00 p.m.

Prizes 4:00 p.m.

Dinner 5:00 p.m.
