

### Women in Engineering Winter Event

**Description:** Parva Alavi, P. Eng, will do a presentation on Women in the Nuclear Industry. Parva has worked as an engineer for 19 years in the nuclear industry. Her current role is Senior Fuel Test Engineer, Fuel Design Branch, Atomic Energy of Canada Ltd. She is a Mechanical Engineer with a Masters degree from the University of Leeds in the UK. Parva has presented many technical papers at international conferences.

In addition, Parva is a board member of Women in Nuclear (WiN) Canada, and Chair of Golden Horseshoe West (GHW), a chapter of WiN Canada that covers 20 member companies from Scarborough to Hamilton. Parva has always been a firm believer in the value of continuous improvement, teamwork and leadership at all levels.

There will also be an opportunity for networking with other members. Light refreshments will be served.

Please register by February 18, 2010.

**Date:** February 22, 2010

**Location:** Mississauga Central Library, Classroom 3, 301 Burnhamthorpe Road West, Mississauga

**Time:** 7:00 to 9:00 pm

**Contact:** Lisa MacCumber, [lisa.maccumber@rogers.com](mailto:lisa.maccumber@rogers.com)

**Notes:** *Seating is limited and usually there is a long waiting list. If for some reasons you are unable to attend, we would appreciate if you could notify us several days in advance. This would allow us to accommodate someone from the waiting list.*
